VIDEO Live Ticker – all highlights in real time

Technical equipment:

cost-efficient – mobile application – easy to use

Production of Video football games is a good sportvideos365 market and with the latest technology in smartphones and cameras becomes easier than ever! All components can be purchased (e.g. Amazon) To facilitate the selection, we are

constantly testing many smartphones, cameras and other accessories. The winner will be certified by us and will receive a professional video production set. Especially designed for the needs of amateur and youth football.

Android Samsung Galaxy S5 neo

Other models: > Samsung Galaxy Camera GC100 > Samsung Galaxy Camera GC200
> Samsung Galaxy S5 neo > Samsung Galaxy S7 > Huawei Nexus 6P

Certified models:

Our certified models have been proven through extensive tests and regular use on football fields. Thus an optimised, proper and sustainable use of the sportvideos365 application is guaranteed.

For these models the application automatically optimises the picture settings and **guarantees the best results.** The list of models is constantly being expanded.

* Date: 01 July 2016 (Amazon) – all prices without guarantee.

Accessories tested:

So that nothing stands in the way of a professional video production, it requires a little more equipment. We recommend that you use the products we have already tested. They are more

than proven in continuous use, they are coordinated and are characterised by **very good value for money**. However, other components can be purchased as long as they meet the requirements.

Tripod

Pay attention to good stability and smooth video head cushioning for blur-free images.

Recommendation:
Velbon Videomate 438
ca. € 70,-*

Tripod holder

For secure attachment of the mobile phone to the tripod.

Recommendation: **Rollei Selfie Clip Smartphone tripod holder**
ca. € 13,-*

Extras:

Camera case

Everything can be completely and safely kept in the case.

Recommendation:
Amazon Basics Camera case
ca. € 16,-*

Battery pack Case

To attach the battery to the tripod.

Recommendation:
CSL-Battery pack case
ca. € 7,-*

Velcro (adhesive)

Self velcro to attach the battery case to the tripod.

Recommendation:
TRIXES velcro
ca. € 5,-*

Additional battery

For enough power, it should be 10.000 mAh.

Recommendation:
JETTech 10.000 mAh Portable Power Bank,
ca. € 17,-*

Memory card

The Samsung Galaxy S5 neo requires a micro SD memory card (32 GB) with SD adapter

Recommendation: **Transcend Micro SDHC 32 GB incl. SD-Adapter**,
ca. € 9,-*

USB cable C

The Nexus 5x must be connected via a USB cable C with the battery (USB to USB C).

Recommendation: **AUKEY USB C Kabel**,
ca. € 8,-*

FAQ:

Can I use Ims with other models?

Yes! Please send us an email with the name and model number of the device. If the device meets our requirements, you can also shoot with this model. A detailed test as with our certified models will not be performed and the image settings are not automatically optimised.

When will you offer certified phones/Cams?

We are constantly testing different devices and regularly adding to the model list. The next update is scheduled for early August.

How does the film work?

Download our sportvideos365 App from the Google Play store on your new device and install it. Then you are ready to shoot!

Can I use the phone elsewhere?

We recommend for video production a separate device in your club. Nobody wants to miss a key highlight. If you use the phone for other tasks, recording and filming may be interrupted due to low disk space and scenes may not be recorded.
